

SUEDELY™

Upcycled Leather

What is Suedely?

Suedely is an upcycled leather upholstery bringing a new and innovative product, diverting leather waste produced from leather crusts and scraps, and transforming those materials, along with durable polyester, into a high quality suede upholstery.

+ HIGH PERFORMANCE UPHOLSTERY
+ FR-FREE

**1**

Raw Hide

Recovered trimmings from leather processing are prepared for refining into leather fiber.

**2**

Leather Fiber

Shavings are processed into usable leather fiber and combined with polyester to create the upholstery back.

**3**

Suede Surface Cloth

A sueded polyester face is knitted and dyed creating a velvety knapped hand.

**4**

WhataShield Plus Protection

An Architex exclusive technology is applied to create a high performance, durable, easy care product.
