

PURE TECH PERFORMANCE FABRIC

INTRODUCING

PURETECH Plus+

Pure Tech combines the latest Stain Resistant Technology with high quality, stylish interior furnishing fabric to ensure easy clean low maintenance, with a long lasting look & feel.

Our performance fabrics have a soft hand feel, and are available in a number of beautifully designed collections. Pure Tech Plus+ fabrics have an additional moisture barrier bonded to the fabric during the production process.

Architex®

Pure Tech Plus+ is woven for extra protection

Pure Tech Plus+ fabrics are antimoisture, mildew and odor resistant, antimicrobial, as well as being luxurious and easy to clean.

Helps stop the spread of germs in public spaces

The special properties of our Pure Tech Plus+ fabric range ensure that liquid or moisture is not able to penetrate through the fabric onto the foam.

The result is that mildew and bad odors caused by accidental spills have less chance attaching themselves to the yarn or the upholstery foam on the inside of the furniture.

The anti-microbial solution applied during the fabric production process gives the fabric that extra level of security to protect whoever touches it against germs and bacteria.

Fully breathable, human-friendly fabrics

Pure Tech Plus+ fabrics are fully breathable and have a luxurious touch: perfect for upholstery and accessory applications.

Many moisture barrier fabrics can be rigid and rough. Pure Tech Plus+ goes the extra mile to ensure the anti-moisture membrane applied is both flexible and breathable.

Proven comfort, every step of the way.

PURETECH
Plus+

How are Pure Tech Plus+ fabrics moisture and mildew resistant?

We have applied a light, breathable membrane to the back of our fabrics. It prevents any penetration of liquids while allowing air to circulate.

How are these fabrics antimicrobial?

An antimicrobial formula is applied during the production process of Pure Tech Plus+ fabrics.

Are Pure Tech Plus+ fabrics eco-friendly?

Yes! Like all other Pure Tech fabrics, Pure Tech Plus+ are OEKO-TEX® Standard 100 certified, guaranteeing that our fabrics won't release any harmful finishes or chemicals into the environment and are safe to use by humans and pets.

Are Pure Tech Plus+ fabrics cleanable?

Yes, Pure Tech Plus+ fabrics are fully cleanable. Through constant testing, we've ensured that the luxurious touch, rich color, and the dimensional stability of the fabric itself are all maintained throughout the cleaning process and life of the product.
