

## LEATHERLY®

*Upcycled Leather*

## What is Leatherly?

Leatherly is an upcycled leather upholstery bringing a new and innovative technology diverting leather waste produced from leather crusts and scraps, and transforming those materials into a high quality leather upholstery.

+ 54" WIDTH

+ SOLD BY THE YARD

+ HIGH PERFORMANCE UPHOLSTERY

+ SOLVENT-FREE

+ LOW CARBON EMISSION

+ DURABLE, EASY CARE PRODUCT

**1**

### Raw Hide

Recovered trimmings from leather processing are prepared for refining into leather fiber.

**2**

### Leather Fiber

Shavings are processed into usable leather fiber.

**3**

### Woven Fiber

The leather fibers are interlinked using a needle-punch power water system. Next, they are tumble dried and brushed creating an exceptional hand.

**4**

### Surface Treatment & Coating

Fibers are treated, coated and embossed to form a high performance, easy care and earth-friendly leather.
